## NOTICES

### GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
  9. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing January 1, 1987, and ending March 31, 1987, such payments to be charged to the proper appropriation following the voting of Supply.
- 

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Cana-

dian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.

16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a

caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
  1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts

entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
  - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
  - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
  - 4) Using the Ontario government's 1.5 per cent equity share in Varity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.

- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
  1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
  1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;

3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;

- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### **Structure: Board of Directors**

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;

- (b) establish policy and procedures in respect of the funding of organizations;
- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;

- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;
- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

### Duties of Representatives

- 1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
- 2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
- 3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
- 4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
- 5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### Privilege and Confidentiality

- 1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
- 2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### Representatives' Right of Access

- 1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
- 2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
- 3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute*

*Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

### Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
  2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
  3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.
73. *Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%.
74. *Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops.
75. *Mr. Cordiano*—Resolution—That this House strongly encourages the Federal Government to review and revise the policy it is pursuing to cut back significantly established programmes financing (EPF) transfers to the provinces, and, this House further encourages the Federal Government to allocate additional resources both to basic funding of post-secondary education and to the Federal Granting Councils for the support of basic research.

## NOTICES

### GOVERNMENT MOTIONS

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
9. *Mr. Nixon*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing January 1, 1987, and ending March 31, 1987, such payments to be charged to the proper appropriation following the voting of Supply.

---

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Cana-

dian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.

16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a

caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
  1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts

entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.

3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
  - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
  - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
  - 4) Using the Ontario government's 1.5 per cent equity share in Varity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.

- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.

51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.

52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.

53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;

3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;

- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### **Structure: Board of Directors**

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;

- (b) establish policy and procedures in respect of the funding of organizations;
- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;

- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;
- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

### Duties of Representatives

1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### Privilege and Confidentiality

1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### Representatives' Right of Access

1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute*

*Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

### Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.

73. *Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%.
74. *Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops.
75. *Mr. Cordiano*—Resolution—That this House strongly encourages the Federal Government to review and revise the policy it is pursuing to cut back significantly established programmes financing (EPF) transfers to the provinces, and, this House further encourages the Federal Government to allocate additional resources both to basic funding of post-secondary education and to the Federal Granting Councils for the support of basic research.
76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
  2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
  3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
  4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy;

strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for indi-

viduals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breough*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
  1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
  1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

## Structure: Board of Directors

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

## Functions: Board of Directors

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;

- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;

- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

### **Duties of Representatives**

- 1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
- 2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
- 3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
- 4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
- 5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### **Privilege and Confidentiality**

- 1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
- 2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### **Representatives' Right of Access**

- 1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
- 2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
- 3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

## Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
  2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
  3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.
73. *Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%.
74. *Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops.
75. *Mr. Cordiano*—Resolution—That this House strongly encourages the Federal Government to review and revise the policy it is pursuing to cut back significantly established programmes financing (EPF) transfers to the provinces, and, this House further encourages the Federal Government to allocate additional resources both to basic funding of post-secondary education and to the Federal Granting Councils for the support of basic research.
76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its “Report of the Special Committee on Reform of the House of Commons” (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the

McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
  2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
  3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
  4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy;

strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for indi-

viduals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
  - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
  - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
  - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
  - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
  - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
  1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
  1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

## Structure: Board of Directors

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

## Functions: Board of Directors

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;

- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;

- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients;  
and
- (8) assisting the client in determining when legal or other professional assistance is required.

### **Duties of Representatives**

- 1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
- 2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
- 3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
- 4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
- 5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### **Privilege and Confidentiality**

- 1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
- 2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### **Representatives' Right of Access**

- 1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
- 2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
- 3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

## Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
  2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
  3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.
73. *Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%.
74. *Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops.
75. *Debated December 18, 1986.*
76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
  2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
  3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
  4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms, including those proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 35 and 36. *Debated Thursday, December 18, 1986.*

Ballot Item No. 37

*Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%. *To be debated on Thursday, January 15, 1987.*

Ballot Item No. 38

*Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops. *To be debated on Thursday, January 15, 1987.*

Ballot Item No. 39

*Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;

2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
  
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strong-

est possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and tempo-

rary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
  - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
  - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
  - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
  - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
  - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
  1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
  1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### **Structure: Board of Directors**

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;

- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;

- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients;  
and
- (8) assisting the client in determining when legal or other professional assistance is required.

### **Duties of Representatives**

- 1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
- 2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
- 3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
- 4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
- 5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### **Privilege and Confidentiality**

- 1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
- 2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### **Representatives' Right of Access**

- 1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
- 2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
- 3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

## Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
  2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
  3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.
73. *Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%.
74. *Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops.
76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its “Report of the Special Committee on Reform of the House of Commons” (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;

2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
  3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
  4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms, including those proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.
77. *Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

### Ballot Item No. 37

*Mr. Pollock—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%. To be debated on Thursday, January 15, 1987.*

### Ballot Item No. 38

*Mr. Stevenson—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops. To be debated on Thursday, January 15, 1987.*

### Ballot Item No. 39

*Mr. Henderson—Resolution—That in the opinion of this House,*

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;

3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms including those proposed by the McGrath Committee in order to strengthen the role of Private Members and of standing committees of the Legislature. *To be debated on Thursday, January 22, 1987.*

Ballot Item No. 40

*Second Reading* Bill 21, An Act to amend the Animals for Research Act. *Mr. Philip. To be debated on Thursday, January 22, 1987.*

Ballot Item No. 44

*Second Reading* Bill 149, An Act to amend the Occupational Health and Safety Act. *Mr. Martel. To be debated on Thursday, January 22, 1987.*

Ballot Item No. 57

*Mrs. Marland—Resolution—*That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
  
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strong-

est possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and tempo-

rary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
  1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
  1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### **Structure: Board of Directors**

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;

- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;

- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

### Duties of Representatives

- 1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
- 2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
- 3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
- 4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
- 5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### Privilege and Confidentiality

- 1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
- 2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### Representatives' Right of Access

- 1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
- 2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
- 3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

## Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.

73. *Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%.

74. *Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops.

76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;

2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
  3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
  4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms, including those proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.
77. *Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.
78. *Ms Gigantes*—Resolution—That in the opinion of this House, since:
- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
  - (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
  - (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
  - (4) the fact that the consultation process to lead into the White Paper on child care has not begun;
- the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:
1. the effective use of government revenue;
  2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
  3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes).

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

### Ballot Item No. 37

*Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%. *To be debated on Thursday, January 15, 1987.*

### Ballot Item No. 38

*Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops. *To be debated on Thursday, January 15, 1987.*

### Ballot Item No. 39

*Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;

3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms including those proposed by the McGrath Committee in order to strengthen the role of Private Members and of standing committees of the Legislature. *To be debated on Thursday, January 22, 1987.*

Ballot Item No. 40

*Second Reading* Bill 21, An Act to amend the Animals for Research Act. *Mr. Philip. To be debated on Thursday, January 22, 1987.*

Ballot Item No. 42

*Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes). *To be debated on Thursday, January 29, 1987.*

Ballot Item No. 44

*Second Reading* Bill 149, An Act to amend the Occupational Health and Safety Act. *Mr. Martel. To be debated on Thursday, February 5, 1987.*

## Ballot Item No. 46

*Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment. *To be debated on Thursday, February 12, 1987.*

## Ballot Item No. 48

*Second Reading* Bill 172, An Act respecting Environmental Rights in Ontario. *Mrs. Grier. To be debated on Thursday, February 19, 1987.*

## Ballot Item No. 57

*Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
  
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strong-

est possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—R  solution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and tempo-

rare extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
  1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
  1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

## Structure: Board of Directors

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

## Functions: Board of Directors

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;

- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;

- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

### Duties of Representatives

- 1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
- 2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
- 3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
- 4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
- 5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### Privilege and Confidentiality

- 1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
- 2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### Representatives' Right of Access

- 1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
- 2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
- 3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

## Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
  2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
  3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.
73. *Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%.
74. *Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops.
76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;

2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
  3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
  4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms, including those proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.
77. *Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.
78. *Ms Gigantes*—Resolution—That in the opinion of this House, since:
- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
  - (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
  - (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
  - (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
  2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
  3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes).

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

### Ballot Item No. 37

*Mr. Pollock*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food in conjunction with the Minister of Revenue should immediately move to increase the Farm Property Tax Rebate from 60% to 70%. *To be debated today.*

### Ballot Item No. 38

*Mr. Stevenson*—Resolution—That, in the opinion of this House, the Minister of Agriculture and Food should undertake a thorough study of the concept of flexible production targets or production goals established by government in conjunction with producer groups. The Minister should pressure the Federal Government to extend this study to the rest of Canada and the study should include an investigation of economic incentives through the stabilization program or other government programs to guarantee a high percentage of producer involvement. The study would concentrate first on production goals for field crops. *To be debated today.*

### Ballot Item No. 39

*Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;

3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms including those proposed by the McGrath Committee in order to strengthen the role of Private Members and of standing committees of the Legislature. *To be debated on Thursday, January 22, 1987.*

Ballot Item No. 40

*Second Reading* Bill 21, An Act to amend the Animals for Research Act. *Mr. Philip. To be debated on Thursday, January 22, 1987.*

Ballot Item No. 42

*Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes). *To be debated on Thursday, January 29, 1987.*

Ballot Item No. 44

*Second Reading* Bill 149, An Act to amend the Occupational Health and Safety Act. *Mr. Martel. To be debated on Thursday, February 5, 1987.*

## Ballot Item No. 46

*Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment. *To be debated on Thursday, February 12, 1987.*

## Ballot Item No. 48

*Second Reading* Bill 172, An Act respecting Environmental Rights in Ontario. *Mrs. Grier. To be debated on Thursday, February 19, 1987.*

## Ballot Item No. 57

*Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a priv-

ilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.

3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government’s election promise to protect Canadian pensioners.
8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson’s statement that Canada has “an acute shortage of rich people,” this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportuni-

ties for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.

9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.
18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the "wildlife saver" devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.

21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.
29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of

assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.

30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
  1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.
44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
  1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and

4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
  - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
  - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
  - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
  - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
  - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.
  - 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over "intra" and "inter" provincial trade of each farm-produced commodity to the federal jurisdiction on the condition

that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.

51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.
54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:

1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.
60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Ontario government should introduce legislation requiring companies which effect a major lay-off or plant closure to establish a Community Adjustment Fund. This fund is to be used by the affected municipality to develop new employment opportunities, to provide social services and to maintain municipal infrastructure.
61. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian

S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.

71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### **Objectives:**

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### **Structure: Board of Directors**

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.

- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;
- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;

- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;
- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

### **Duties of Representatives**

- 1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
- 2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.

3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### Privilege and Confidentiality

1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### Representatives' Right of Access

1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

### Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.

73. Debated January 15, 1987.

74. Debated January 15, 1987.

76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms, including those proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.

77. *Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

78. *Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;

- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

- 1. the effective use of government revenue;
- 2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
- 3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes).

79. *Mr. Cureatz*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should ensure the continuation of an active farmer being allowed to retain a retirement lot by severance and further that the farm community should be allowed in those circumstances where farms have unworkable agricultural lots as ravine lots, small bush lots, inaccessible areas for large farm equipment, and other such land and in the discretion of the Land Division Committee to take in further considerations, one of which would be the size of the property, and further upon the said adoption of said policy by the County or Regional Government, to be allowed to sever off such said parcel, and any future owners of said severed land would acknowledge the farmer's right to farm on surrounding property.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 37 and 38. *Debated January 15, 1987.*

Ballot Item No. 39

*Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its “Report of the Special Committee on Reform of the House of Commons” (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee’s view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party’s principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms including those proposed by the McGrath Committee in order to strengthen the role of Private Members and of standing committees of the Legislature. *To be debated on Thursday, January 22, 1987.*

Ballot Item No. 40

*Second Reading Bill 21, An Act to amend the Animals for Research Act. Mr. Philip. To be debated on Thursday, January 22, 1987.*

## Ballot Item No. 42

*Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes). *To be debated on Thursday, January 29, 1987.*

## Ballot Item No. 43

*Mr. Cureatz*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should ensure the continuation of an active farmer being allowed to retain a retirement lot by severance and further that the farm community should be allowed in those circumstances where farms have unworkable agricultural lots as ravine lots, small bush lots, inaccessible areas for large farm equipment, and other such land and in the discretion of the Land Division Committee to take in further considerations, one of which would be the size of the property, and further upon the said adoption of said policy by the County or Regional Government, to be allowed to sever off such said parcel, and any future owners of said severed land would acknowledge the farmer's right to farm on surrounding property. *To be debated on Thursday, February 5, 1987.*

## Ballot Item No. 44

*Second Reading* Bill 149, An Act to amend the Occupational Health and Safety Act. *Mr. Martel. To be debated on Thursday, February 5, 1987.*

## Ballot Item No. 46

*Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern,

effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment. *To be debated on Thursday, February 12, 1987.*

Ballot Item No. 48

*Second Reading* Bill 172, An Act respecting Environmental Rights in Ontario. *Mrs. Grier. To be debated on Thursday, February 19, 1987.*

Ballot Item No. 57

*Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy;

strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strongest possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lendor) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for indi-

viduals, community groups, co-operatives and small businesses and temporary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breaugh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
  - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
  - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
  - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
  - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
  - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.
49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
61. *Withdrawn January 19, 1987.*
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### Structure: Board of Directors

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.

- (2) The Board is composed of twenty-five members.
- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;
- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;

- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;
- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;
- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and

- (8) assisting the client in determining when legal or other professional assistance is required.

### Duties of Representatives

1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

### Privilege and Confidentiality

1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

### Representatives' Right of Access

1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

### Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.

2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.
3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.

76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its "Report of the Special Committee on Reform of the House of Commons" (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee's view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party's principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms, including those proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.

77. *Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

78. *Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes).

79. *Mr. Cureatz*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should ensure the continuation of an active farmer being allowed to retain a retirement lot by severance and further that the farm community should be allowed in those circumstances where farms have unworkable agricultural lots as ravine lots, small bush lots, inaccessible areas for large farm equipment, and other such land and in the discretion of the Land Division Committee to take in further considerations, one of which would be the size of the property, and further upon the said adoption of said policy by the County or Regional Government, to be allowed to sever off such said parcel, and any future owners of said severed land would acknowledge the farmer's right to farm on surrounding property.

80. *Mr. Grossman*—Resolution—That, recognizing the unique importance of the automobile industry to the economic future of Ontario and Canada, particularly to the one in seven Ontario manufacturing workers and the 250,000 Canadians who depend on the industry for employment and to the 41 Ontario communities in which the industry constitutes a major part of their economic base, and recognizing the vital role which the Canada-United States Automotive Agreement (Auto Pact) has had in fostering employment growth and capital investment in the Canadian automobile industry, this House is of the opinion that the Auto Pact should not be amended as a result of the present trade negotiations between the Government of Canada and the United States, that action should be taken to ensure that the United States does not exercise its option to terminate the Auto Pact, that all foreign automobile manufacturers building plants in Ontario should be urged to attain

Auto Pact status, and that the Government of Ontario should ensure that appropriate skills training and fair trade policies are in place to support the continued growth and viability of the automobile industry in the province.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

### Ballot Item No. 39

*Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its “Report of the Special Committee on Reform of the House of Commons” (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee’s view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party’s principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms including those proposed by the McGrath Committee in order to strengthen the role of Private Members and of standing committees of the Legislature. *To be debated on Thursday, January 22, 1987.*

### Ballot Item No. 40

*Second Reading Bill 21, An Act to amend the Animals for Research Act. Mr. Philip. To be debated on Thursday, January 22, 1987.*

## Ballot Item No. 41

*Mr. Grossman*—Resolution—That, recognizing the unique importance of the automobile industry to the economic future of Ontario and Canada, particularly to the one in seven Ontario manufacturing workers and the 250,000 Canadians who depend on the industry for employment and to the 41 Ontario communities in which the industry constitutes a major part of their economic base, and recognizing the vital role which the Canada-United States Automotive Agreement (Auto Pact) has had in fostering employment growth and capital investment in the Canadian automobile industry, this House is of the opinion that the Auto Pact should not be amended as a result of the present trade negotiations between the Government of Canada and the United States, that action should be taken to ensure that the United States does not exercise its option to terminate the Auto Pact, that all foreign automobile manufacturers building plants in Ontario should be urged to attain Auto Pact status, and that the Government of Ontario should ensure that appropriate skills training and fair trade policies are in place to support the continued growth and viability of the automobile industry in the province. *To be debated on Thursday, January 29, 1987.*

## Ballot Item No. 42

*Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes). *To be debated on Thursday, January 29, 1987.*

## Ballot Item No. 43

*Mr. Cureatz*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should ensure the continuation of an active farmer being

allowed to retain a retirement lot by severance and further that the farm community should be allowed in those circumstances where farms have unworkable agricultural lots as ravine lots, small bush lots, inaccessible areas for large farm equipment, and other such land and in the discretion of the Land Division Committee to take in further considerations, one of which would be the size of the property, and further upon the said adoption of said policy by the County or Regional Government, to be allowed to sever off such said parcel, and any future owners of said severed land would acknowledge the farmer's right to farm on surrounding property. *To be debated on Thursday, February 5, 1987.*

Ballot Item No. 44

*Second Reading* Bill 149, An Act to amend the Occupational Health and Safety Act. *Mr. Martel. To be debated on Thursday, February 5, 1987.*

Ballot Item No. 45

*Second Reading* Bill 188, An Act to amend the Retail Business Holidays Act. *Mr. Ashe. To be debated on Thursday, February 12, 1987.*

Ballot Item No. 46

*Mr. Wildman—Resolution—*That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment. *To be debated on Thursday, February 12, 1987.*

Ballot Item No. 48

*Second Reading* Bill 172, An Act respecting Environmental Rights in Ontario. *Mrs. Grier. To be debated on Thursday, February 19, 1987.*

Ballot Item No. 57

*Mrs. Marland—Resolution—*That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

## NOTICES

### GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

### PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
  
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called “Federated State of Northern Cyprus”; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
  
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strong-

est possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and tempo-

rary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breaugh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
  - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
  - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
  - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
  - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
  - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
  1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
  1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### Structure: Board of Directors

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.

- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;
- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;

- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;
- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

## Duties of Representatives

1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

## Privilege and Confidentiality

1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

## Representatives' Right of Access

1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

## Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.

3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.

76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its “Report of the Special Committee on Reform of the House of Commons” (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee’s view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party’s principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms, including those proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.

77. *Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

78. *Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes).

79. *Mr. Cureatz*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should ensure the continuation of an active farmer being allowed to retain a retirement lot by severance and further that the farm community should be allowed in those circumstances where farms have unworkable agricultural lots as ravine lots, small bush lots, inaccessible areas for large farm equipment, and other such land and in the discretion of the Land Division Committee to take in further considerations, one of which would be the size of the property, and further upon the said adoption of said policy by the County or Regional Government, to be allowed to sever off such said parcel, and any future owners of said severed land would acknowledge the farmer's right to farm on surrounding property.
80. *Mr. Grossman*—Resolution—That, recognizing the unique importance of the automobile industry to the economic future of Ontario and Canada, particularly to the one in seven Ontario manufacturing workers and the 250,000 Canadians who depend on the industry for employment and to the 41 Ontario communities in which the industry constitutes a major part of their economic base, and recognizing the vital role which the Canada-United States Automotive Agreement (Auto Pact) has had in fostering employment growth and capital investment in the Canadian automobile industry, this House is of the opinion that the Auto Pact should not be amended as a result of the present trade negotiations between the Government of Canada and the United States, that action should be taken to ensure that the United States does not exercise its option to terminate the Auto Pact, that all foreign automobile manufacturers building plants in Ontario should be urged to attain Auto Pact status, and that the Government of Ontario should ensure that

appropriate skills training and fair trade policies are in place to support the continued growth and viability of the automobile industry in the province.

## PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strong-

est possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and tempo-

rary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke (Windsor-Riverside)*—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:

1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
4. that the USSR permit communication between Canadians and other relatives in Ukraine.

47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in south Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:

- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
- 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
- 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
- 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
- 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
- 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
  1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
  1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### Objectives:

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### Structure: Board of Directors

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.

- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;
- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;

- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;
- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

## Duties of Representatives

1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

## Privilege and Confidentiality

1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

## Representatives' Right of Access

1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

## Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.

3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.

76. *Mr. Henderson*—Resolution—That in the opinion of this House,

Recognizing that representative democracy is a form of government in which ultimate power is retained by the people and exercised through a system of representation and delegated authority;

Recognizing that the McGrath Committee, through its “Report of the Special Committee on Reform of the House of Commons” (Canada), has argued that a reasonable latitude consistent with loyalty to a Party, including the freedom to reject or amend legislation, should be exercised by individual government and opposition members, and has observed that defeat of a government bill or motion may, if necessary, be followed by a vote of confidence to sustain a government; and

Recognizing the beneficial effects of divergent viewpoints among elected members of political parties in the legislatures of other jurisdictions, such as the British House of Commons, and the beneficial early effects of the McGrath Committee recommendations on the Canadian House of Commons;

Therefore, in order to facilitate constructive reform of the Legislature, this House,

1. supports in principle the reforms proposed by the McGrath Committee;
2. affirms the McGrath Committee’s view that divergence of viewpoint among Members of a particular Party can convey strength, maturity, and sensitivity;
3. affirms that the Private Members should exercise a measure of independent judgement consistent with loyalty to their Party’s principles in speaking and voting according to conscience; and
4. asks the Standing Committee on the Legislative Assembly to undertake a comprehensive study and report back to the House concerning the desirability and feasibility of reforms, including those proposed by the McGrath Committee in order to strengthen the role of private members and of standing committees of the Legislature.

77. *Mrs. Marland*—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

78. *Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes).

79. *Mr. Cureatz*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should ensure the continuation of an active farmer being allowed to retain a retirement lot by severance and further that the farm community should be allowed in those circumstances where farms have unworkable agricultural lots as ravine lots, small bush lots, inaccessible areas for large farm equipment, and other such land and in the discretion of the Land Division Committee to take in further considerations, one of which would be the size of the property, and further upon the said adoption of said policy by the County or Regional Government, to be allowed to sever off such said parcel, and any future owners of said severed land would acknowledge the farmer's right to farm on surrounding property.
80. *Mr. Grossman*—Resolution—That, recognizing the unique importance of the automobile industry to the economic future of Ontario and Canada, particularly to the one in seven Ontario manufacturing workers and the 250,000 Canadians who depend on the industry for employment and to the 41 Ontario communities in which the industry constitutes a major part of their economic base, and recognizing the vital role which the Canada-United States Automotive Agreement (Auto Pact) has had in fostering employment growth and capital investment in the Canadian automobile industry, this House is of the opinion that the Auto Pact should not be amended as a result of the present trade negotiations between the Government of Canada and the United States, that action should be taken to ensure that the United States does not exercise its option to terminate the Auto Pact, that all foreign automobile manufacturers building plants in Ontario should be urged to attain Auto Pact status, and that the Government of Ontario should ensure that

appropriate skills training and fair trade policies are in place to support the continued growth and viability of the automobile industry in the province.

## NOTICES

## GOVERNMENT MOTION

5. *Debated May 13, 14, 15, 20, 21, 22, 26 and 27, 1986.*
- 

## PRIVATE MEMBERS' MOTIONS

2. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing that access to health care treatment and facilities should be a right and not a privilege, and should not be subject to geographic or economic barriers, the Government of Ontario should incorporate as a fully-insured service under OHIP the cost of medically necessary travel, as determined by a qualified physician, in excess of 200 miles; and further that the Government should begin by instituting such coverage for residents of Northern Ontario (that is for those living in the Territorial Districts north of the French River) within six months of the passage of this resolution and that coverage for the rest of the province be phased in over a four-year period; and further that in the case of a child needing such medically necessary travel, the Government give consideration to covering the costs of travel for one parent or guardian of such a child.
3. *Mr. Warner*—Resolution—That in the opinion of this House, considering the continuing Turkish occupation of Cyprus and the unknown fate of 2,000 missing Cypriots, the Government of Ontario should express concern about the continuing illegal Turkish colonization of Cyprus, and the latest secessionist movement of the Denktash regime, by: (1) urging the Government of Canada to support measures for the implementation of the U.N. resolutions on Cyprus; (2) calling upon the Turkish Government to provide immediate information on the missing Cypriots which according to indisputable evidence are held by Turkish authorities contrary to international law; (3) calling upon the Turkish Government to respect the human rights provision of the Helsinki accord, especially in regards to Cyprus; (4) calling upon the Turkish Government to cease immediately further colonization of Cyprus and to withdraw all illegal colonists, transplanted with a view to changing the demographic nature of the Island; (5) condemning the new secessionist movement of the so-called "Federated State of Northern Cyprus"; and (6) calling upon the Government of Canada to cease further negotiations with the Turkish Government on the sale of a nuclear reactor, until the latter complies with the U.N. resolutions on Cyprus and shows a respect for international law.
7. *Mr. Foulds*—Resolution—That in the opinion of this House, the Federal Conservative government has, by eliminating full inflation protection for Canadian pensioners, imposed unfair hardships on those least able to protect themselves; and therefore, this House condemns as arbitrary and ill-conceived the budget of Michael Wilson which takes money out of the pockets of pensioners while providing more tax giveaways to the wealthy; strongly calls upon the Government of Canada to abandon its intention to de-index pensions and urges the Government of Ontario to make the strong-

est possible representation to the Government of Canada to re-affirm the Federal Conservative government's election promise to protect Canadian pensioners.

8. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Federal Conservative government has favoured business and the rich at the expense of the economically disadvantaged, particularly pensioners, and considering Finance Minister Michael Wilson's statement that Canada has "an acute shortage of rich people," this House condemns the federal budget of Michael Wilson that focuses on more tax breaks for the wealthy rather than providing decent pensions for elderly and more employment opportunities for the unemployed poor, and that the Canadian government should recognize that our problem is too many poor people, not too few rich people.
9. *Mr. Ramsay*—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should introduce legislation to:
  - (1) establish a debt review agency to referee financial disputes between farmers and banks or other lending institutions and that not less than 50% of the members of the agency should be farmers and that the agency would deal with short-term debts other than mortgages and would be empowered to make binding decisions subject only to appeal to the judge of the local court;
  - (2) provide a moratorium on all farm bankruptcies and foreclosures of mortgages on farm lands and buildings except where an exemption is approved by a judge and on application by a mortgagee (lender) the judge may grant leave for foreclosure or commencement of bankruptcy proceedings or, alternatively, may postpone any forfeiture for such time and subject to such conditions as he thinks fit.
10. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment.
11. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the much greater distance to be covered by police officers in carrying out their duties in certain northern municipalities results in the need for those municipalities to maintain larger police forces per capita to maintain an adequate police service, the Government should amend the *Ontario Unconditional Grants Act* to provide larger grants for policing to those northern municipalities.
16. *Mr. Wildman*—Resolution—That this House should request the Ontario government to amend this province's mining tax system to ensure sufficient revenues accrue to the provincial treasury from the mining companies to enable the government to allocate a reserve fund, as part of a "Northern Ontario Tomorrow Fund", to be distributed as grants, loans and guarantees for individuals, community groups, co-operatives and small businesses and tempo-

rary extraordinary grants to municipalities to assist in the economic recovery from the adverse effects of mine shutdowns.

18. *Mr. Wildman*—Resolution—That in the opinion of this House the Ministries of Natural Resources and Transportation and Communications should implement, jointly, a formal testing program to investigate the effectiveness of the “wildlife saver” devices when attached to automobiles, to determine whether the use of these devices would have adverse effects on either the general public or domestic animals and wild game, and to study the feasibility of requiring the installation of these devices on motor vehicles in certain regions of the province or throughout Ontario.
21. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the *Employment Standards Act* should be amended to provide that the standards set by the Act relating to hours of work, overtime pay and public holidays are applicable to persons employed in landscape gardening, mushroom growing, the growing of flowers for the retail and wholesale trade, the growing, transporting and laying of sod, and the growing of trees and shrubs for wholesale and retail trade.
23. *Mr. Lupusella*—Resolution—That in the opinion of this House, the Government should create a new system for municipal finance which will reduce the burden of residential property taxes and phase out the present residential property tax system and replace it with a system which reflects ability to pay. In order to achieve these objectives, the Government should phase-in a series of reforms designed: (1) to reverse the process of shifting provincial spending obligations onto local taxpayers; (2) to shift the funding of education and social services from the residential property tax base to progressive sources of revenue; and (3) to restructure the financing of local hard services, so that they reflect benefit and ability to pay. Specifically, the following phased-in program should be followed: (a) immediate increases in municipal grants to reflect the cost of providing municipal services; (b) immediate assumption, by the provincial Government, of the full cost of welfare and related social services; (c) phased-in removal of the education portion of residential property taxes over a period of five years thereby reducing property taxes by about 50%; (d) replacement of the remainder of the present residential property tax with a tax system that reflects benefit and ability to pay; and (e) reform of the non-residential property tax system to eliminate inequities particularly as they affect small businesses.
28. *Mr. Wildman*—Resolution—That in the opinion of this House, recognizing that the Canadian Transport Commission has approved a plan to allow the testing of electronic monitoring devices by Canadian National Railways and the Canadian Pacific Railway whose avowed aim is to eliminate the use of a caboose at the rear of trains, and recognizing the important role played by tail-end crews in protecting the public safety, preventing accidents and minimizing injury and damage in accidents that do occur, the Government of Ontario should urge the Government of Canada to continue to require every train to operate with a caboose.

29. *Mr. Swart*—Resolution—That in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) The formation of a separate branch or division with a registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) disclosure of names and background of officers and directors of franchisor; (4) application to all industries and all franchises within each industry; (5) the franchisee to have a four-day cooling off period; (6) prohibition against dealing in franchises except as provided; (7) exemption of liability by franchisee for future damages; (8) the administrators of the Act to have authority to discourage: (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; and (e) competitive and discriminatory practices by franchisors.
30. *Mr. Cooke* (Windsor-Riverside)—Resolution—That in the opinion of this House, since hospital nurses and public health nurses provide work of equal value, the Minister of Health should move immediately to implement the government's policy of equal pay for work of equal value and establish parity between public health nurses and their counterparts in hospitals, by making additional funding available to Public Health Boards specifically for the purpose of implementing parity.
36. *Mr. Mackenzie*—Resolution—That in the opinion of this House, recognizing that certain classes of workers are discriminated against by the denial of rights provided to other workers, the regulations under the Employment Standards Act should be amended to provide that the standards set by the Act relating to hours of work, overtime pay, and public holidays are applicable to a person employed as a superintendent, janitor or caretaker of a residential building who resides in the building.
42. *Mr. Breagh*—Resolution—That this House urges the Government of Ontario to make the same financial support available for municipal election campaigns as exists for provincial campaigns, by providing contributors with tax credits and candidates with campaign subsidies, in the following manner:
1. Individual municipalities, school boards and public utilities commissions would be permitted to opt into a provincial plan created by statute.
  2. Under the provincial plan, candidates would register with the Commission on Election Contributions and Expenses. Registered candidates would be required to file detailed returns of contributions received and expenses incurred, and their contributors would receive official receipts entitling them to credits against provincial income tax in the same manner as contributors to provincial election campaigns.
  3. A registered candidate who received at least 15 per cent of the popular vote would be entitled to the same reimbursement by the Commission as a candidate in a provincial election.

44. *Mr. Breagh*—Resolution—That in the opinion of this House the following actions are urgently needed to defend the physical and mental health of peoples effected by the Chernobyl tragedy:
1. that the UN form an International Investigative Committee of scientists and medical experts to enter Ukraine to assess the extent of danger;
  2. that Canada declare its preparedness to contribute emergency aid—medicine, food, technical personnel as needed;
  3. that Canada announce an open door policy for family reunification and sponsorship of immigrants wishing to leave Ukraine; and
  4. that the USSR permit communication between Canadians and other relatives in Ukraine.
47. *Mr. Foulds*—Resolution—That in the opinion of this House, recognizing the profound effect of the recent visit (including his direct appeal to the Legislature of Ontario) of Bishop Desmond Tutu on all Canadians; recognizing the warning of a potential bloodbath contained in the Eminent Persons Report of June 12, 1986, and recognizing that the increasing crisis in South Africa can only be affected by outside influences if substantive sanctions are brought to bear on South Africa, the government of Ontario should adopt the following policies to express the province's solidarity with the struggle for freedom for Blacks in South Africa and to express the anger and abhorrence of the Ontario people against the crime of apartheid:
- 1) A continuation of the ban of the import of all South African Liquor and an auction of all present South African liquor products in stock at liquor stores and LCBO warehouses, with the full proceeds going to victims of apartheid.
  - 2) Government procurement policies prohibiting the purchase of goods or services from companies with direct investments in South Africa.
  - 3) A ban on the purchase on South African goods or services by the Ontario government and public institutions funded by the Ontario government including hospitals and community colleges.
  - 4) Using the Ontario government's 1.5 per cent equity share in Varsity Corporation formerly Massey-Ferguson to persuade that company to cease doing business in South Africa, and failing that, divestment of the shares.
  - 5) Divestment by government agencies of pension fund investments in companies with direct investment in South Africa.
  - 6) Increased pressure on the federal government to impose full economic sanctions against South Africa.

- 7) Solidarity with the heroic struggle being waged by the ANC, the United Democratic Front and the unions of COSATU and CUSA in the battle against apartheid in South Africa.

49. *Mr. Hayes*—Resolution—That in the opinion of this House, the current food policy of our province and our country has generated the present instability in food production and uncertainty among farmers as to the future and has resulted in many farm units being forced to supplement farm income with off-farm employment, or get out of farming either by selling out or through bankruptcy; and much of present confusion about farm production and marketing in this country stems from the contradictions and inconsistencies between the federal and the various provincial policies and programmes. Therefore, the provincial government strongly urges the federal government to legislate the transfer of powers over “intra” and “inter” provincial trade of each farm-produced commodity to the federal jurisdiction on the condition that the federal legislation must permit the establishment of national marketing structures for all farm produced commodities and must have the following powers: control of the product into, through and out of the marketing system to meet market demands; single desk selling; equality of delivery opportunity between producers; pooling of returns and costs among producers; elimination of manipulation, speculation and waste. The federal government should appoint commissioners to administer each of the marketing structures, which would be responsible to the federal government. The criteria for selecting commissioners would be based on their marketing expertise in the particular kind of commodity affected. They need not be producers of that commodity or of any other farm commodity (as is the case currently with the Canadian Wheat Board). In addition, the national policy to dictate overall production targets, and market-sharing agreements between provinces would need to be negotiated.
51. *Mr. Foulds*—Resolution—That in the opinion of this House, the Treasurer of Ontario should establish a permanent Northern Ontario Fund, managed by Northerners. This fund would be invested, through loans, grants and joint ventures, in development projects that meet the priorities set through community, regional and provincial planning. The monies to establish the fund would come from a consolidation of existing Northern development funds and programmes, and, in addition, through an earmarked percentage of current provincial revenue from resource industry taxation.
52. *Mr. Rae*—Resolution—That in the opinion of this House, the Minister of Health should take steps to establish a medical school and health research facility in Northern Ontario to encourage more health professionals to practise in the North, to provide better health care services for Northerners and to attract job-creating enterprises involved in the research and production of health related products.
53. *Mr. Mackenzie*—Resolution—That in the opinion of this House, the Minister of Labour should introduce changes to the Employment Standards Act which would require six months notice when more than 50 workers are to be permanently laid off by an employer within a six month period.

54. *Mr. Laughren*—Resolution—That in the opinion of this House, the Minister of Natural Resources should develop a comprehensive wood utilization policy and enforcement programme to ensure the most valuable end use of our forest resource. Further, the Minister should initiate a task force to study improved and alternate forest management practices.
55. *Mr. Laughren*—Resolution—That in the opinion of this House, the Ontario government should establish a Forestry Institute to generate new forestry-related industries in Northern Ontario by developing forest machinery and processing technologies as well as better forest management and silvicultural practices.
56. *Mr. Martel*—Resolution—That in the opinion of this House, the Ontario government should undertake a major decentralization of government office from Toronto to Northern Ontario in order:
1. to ensure policies and programmes that affect Northern Ontario are formulated by staff with a clear understanding of the North;
  2. to provide local employment in Northern communities;
  3. to play a role in attracting other enterprises to Northern communities.
57. *Mr. Morin-Strom*—Resolution—That in the opinion of this House, the Ontario government should establish a Northern Technology Research and Development Institute to develop new, secondary manufacturing opportunities applicable to Northern communities.
58. *Mr. Pouliot*—Resolution—That in the opinion of this House, the Ontario government should negotiate planning agreements with companies wanting access to publicly-owned natural resources. These agreements could include, but would not be limited to, guarantees from the company to employ and train local residents, to re-invest in Northern communities and to use the services of local businesses. Input from communities affected by resource development would play a major role in these negotiations.
59. *Mr. Wildman*—Resolution—That in the opinion of this House, the Ontario government should guarantee a just and equitable price for gasoline to Ontario consumers in all regions of the province by introducing legislation that would allow the Ontario government:
1. to continually review gasoline prices;
  2. to hold public hearings to determine a fair and reasonable price for gasoline products;
  3. to set maximum wholesale and retail prices for gasoline products and ensure these prices are uniform across the province;
  4. to permit increases in the wholesale or retail price of gasoline products only after they have been fully justified at a public hearing.

60. *Mr. Wildman*—Resolution—That in the opinion of this House, the Minister of Northern Development and Mines should establish an Ontario Mining Development Foundation to help generate new mining-related industries in Northern Ontario by developing exploration techniques, mineral processing techniques and related mining technologies.
67. *Mr. Shymko*—Resolution—That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, if the following five constituent Republics of the U.S.S.R., namely, the Estonian S.S.R., Latvian S.S.R., Lithuanian S.S.R., Byelorussian S.S.R. and Ukrainian S.S.R. pass similar declarations by their republican Governments declaring their territories Nuclear Arms Free Zones in a spirit of brotherhood and solidarity with Ontario for the cause of world peace, and all the above Governments should prohibit the deployment of nuclear weapons in their territories, the testing of nuclear weapons and associated equipment in the Province and the five constituent Republics, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province and the five constituent Republics, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province and the five constituent Republics of the U.S.S.R. should encourage cities, provinces and states throughout the world to initiate similar, reciprocal action in the spirit of this year's declaration of the Year of International Peace by the United Nations to guarantee a safe world for future generations of humanity.
71. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House, the government should introduce legislation to establish advocacy services for disadvantaged persons. This legislation should be entitled the Disadvantaged Persons' Representatives Funding Board Act, and should include the following sections:—

### **Objectives:**

The objectives of the Disadvantaged Persons' Representatives Funding Board and of this Act, are:

- (a) to enable clients to lead lives as independently as possible;
- (b) to reduce the need for guardians or conservators;
- (c) to reduce incidences where clients are abused or neglected; and
- (d) to promote respect for and ensure the rights, freedoms and dignity of clients.

### **Structure: Board of Directors**

- (1) The Disadvantaged Persons' Representatives Funding Board (the Board) is established.
- (2) The Board is composed of twenty-five members.

- (3) Eight members of the Board shall be appointed by the Lieutenant Governor in Council.
- (4) Seventeen members of the Board shall be appointed by non-profit organizations, composed primarily of clients, or potential clients of the Board, or of the services of the Board which are not engaged directly, or through their affiliates, in the delivery of health, residential or vocational services to clients as are prescribed by regulation.
- (5) Board appointments shall be made at the pleasure of the organization or the Lieutenant Governor in Council making the appointment.
- (6) The Board shall elect a member of the Board as chair, and a member as vice-chair, but one of these members shall be a member appointed in accordance with (4).
- (7) The Board may authorize any function of the Board to be performed by a committee, composed of at least two members appointed in accordance with (3), and three members appointed in accordance with (4), provided that such committee has, at least, one more member appointed in accordance with (4) than members appointed in accordance with (3).
- (8) The Board is responsible to the Attorney General for the Administration of this Act.
- (9)
  - (i) the Board shall make a report annually to the Minister and the report shall contain such information as the Minister requires;
  - (ii) the Minister shall submit the report to the Lieutenant Governor in Council and shall then lay the report before the Assembly if it is in session or, if not, at the next ensuing session.

### **Functions: Board of Directors**

It is the function of the Disadvantaged Persons' Representatives Funding Board, and it has the power to,

- (a) establish functions and standards for the provision of services in accordance with the legislation;
- (b) establish policy and procedures in respect of the funding of organizations;
- (c) require organizations that have received funds to report to the Board in respect to the use of the funds, at such intervals, and in such form and detail, as the Board may require;
- (d) assist in the planning and development of organizations and the system of organizations;
- (e) develop resource and training facilities and programs for organizations in consultation with the organizations;

- (f) provide preliminary funding where the Board considers such funding advisable, to assist in the development of a new organization;
- (g) require an organization to provide the Board with information in respect of any complaint between the organization and a person provided with services by the organization, or a person affected by the services provided by the organization, and in respect of the disposition of the complaint;
- (h) communicate with those responsible for the provision of health, social, vocational and residential services to clients of organizations;
- (i) conduct programs of public information to further the objectives of the legislation;
- (j) promote the improvement and development of services to clients under this legislation; and
- (k) perform any other action that, in the opinion of the Board, is advisable for the efficient performance of its functions under this Part.

### **Services to be provided to Clients under this Act**

Subject to priorities established by the legislation, staff and volunteers of the Board or the organization, shall provide service coordination and advocacy to clients, including:

- (1) providing assistance in receiving and evaluating information relevant to decisions regarding management of property, health care, nutrition, shelter, clothing or personal hygiene, or a decision for instructing another person to act on the client's behalf for personal protection;
- (2) assisting in carrying out or communicating the client's decisions;
- (3) identifying all of the necessary and appropriate support services and informing the client of their availability;
- (4) providing or arranging for counselling to enhance independent living skills;
- (5) facilitating the obtainment of services chosen by the client and to monitor and evaluate the delivery of those services;
- (6) expressing and representing the client's choices and wishes;
- (7) advocating the establishment of services to meet the needs of the clients; and
- (8) assisting the client in determining when legal or other professional assistance is required.

## Duties of Representatives

1. Representatives shall perform the services required of a community living counsellor under the guardianship and conservatorship legislation.
2. A representative shall provide services to the client with honesty, integrity, due diligence and in good faith.
3. A representative shall not make a substitute decision on behalf of the client and shall provide service in accordance with the instructions of the client.
4. Where a person has a substitute decision-maker under the *Substitute Decisions Authority Act*, services that are available to clients may be provided to the incapable person with the consent of the substitute decision-maker and where the incapable person does not object.
5. Where there is a substitute decision-maker acting on behalf of an adult person, under the *Substitute Decisions Authority Act*, the representative may assist the adult person to exercise any right available under that Act.

## Privilege and Confidentiality

1. The representative owes a duty not to disclose information obtained as a result of providing service to the client without the client's consent.
2. A representative is not compellable witness in a proceeding under the *Mental Health Act* or the *Substitute Decisions Authority Act*.

## Representatives' Right of Access

1. A representative shall have access to all care facilities and residents of those facilities for the purpose of providing services under this Act.
2. No person shall intentionally prevent a representative from having access to a client or a person whom the representative is required to contact under the *Substitute Decisions Authority Act*.
3. A representative with the consent of the client, or of a substitute decision-maker authorized to provide consent under the *Substitute Decisions Authority Act*, shall have access to all records regarding the client or incapable person which are maintained in a care facility.

## Administration

1. The Board may lease such premises and acquire such equipment and supplies as are necessary for its efficient operation.
2. The accounts and financial transactions of the Board shall be audited annually by the Provincial Auditor.

3. The Board may employ officers and other employees and may determine their salary and remuneration and terms and conditions of employment.

76. *Debated Thursday, January 22, 1987.*

77. *Mrs. Marland—Resolution—*That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.

78. *Ms Gigantes—Resolution—*That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and
3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes).

79. *Mr. Cureatz—Resolution—*That in the opinion of this House, the Minister of Agriculture and Food should ensure the continuation of an active farmer being allowed to retain a retirement lot by severance and further that the farm community should be allowed in those circumstances where farms have unworkable agricultural lots as ravine lots, small bush lots, inaccessible areas for large farm equipment, and other such land and in the discretion of the Land Division Committee to take in further considerations, one of which would be the size of the property, and further upon the said adoption of said policy by the County or Regional Government, to be allowed to sever off such said parcel, and any future owners of said severed land would acknowledge the farmer's right to farm on surrounding property.

80. *Mr. Grossman*—Resolution—That, recognizing the unique importance of the automobile industry to the economic future of Ontario and Canada, particularly to the one in seven Ontario manufacturing workers and the 250,000 Canadians who depend on the industry for employment and to the 41 Ontario communities in which the industry constitutes a major part of their economic base, and recognizing the vital role which the Canada-United States Automotive Agreement (Auto Pact) has had in fostering employment growth and capital investment in the Canadian automobile industry, this House is of the opinion that the Auto Pact should not be amended as a result of the present trade negotiations between the Government of Canada and the United States, that action should be taken to ensure that the United States does not exercise its option to terminate the Auto Pact, that all foreign automobile manufacturers building plants in Ontario should be urged to attain Auto Pact status, and that the Government of Ontario should ensure that appropriate skills training and fair trade policies are in place to support the continued growth and viability of the automobile industry in the province.

## PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the Order of the House passed on Wednesday, February 12, 1986, and pursuant to Standing Order 71 (d).)*

Ballot Item Nos. 39 and 40. *Debated Thursday, January 22, 1987.*

Ballot Item No. 41

*Mr. Grossman*—Resolution—That, recognizing the unique importance of the automobile industry to the economic future of Ontario and Canada, particularly to the one in seven Ontario manufacturing workers and the 250,000 Canadians who depend on the industry for employment and to the 41 Ontario communities in which the industry constitutes a major part of their economic base, and recognizing the vital role which the Canada-United States Automotive Agreement (Auto Pact) has had in fostering employment growth and capital investment in the Canadian automobile industry, this House is of the opinion that the Auto Pact should not be amended as a result of the present trade negotiations between the Government of Canada and the United States, that action should be taken to ensure that the United States does not exercise its option to terminate the Auto Pact, that all foreign automobile manufacturers building plants in Ontario should be urged to attain Auto Pact status, and that the Government of Ontario should ensure that appropriate skills training and fair trade policies are in place to support the continued growth and viability of the automobile industry in the province. *To be debated on Thursday, January 29, 1987.*

Ballot Item No. 42

*Ms Gigantes*—Resolution—That in the opinion of this House, since:

- (1) the fact that the Select Committee on Health (established to consider the role of the commercial, for-profit sector of health and social services) has not yet reported;
- (2) the fact that this government is on record as supporting a moratorium on further privatization of health and social services;
- (3) the fact that the Legislature has waited a year for the promised White Paper on child care, and
- (4) the fact that the consultation process to lead into the White Paper on child care has not begun;

the Government of Ontario should prohibit direct public funding of commercial child care programs, for the following policy reasons:

1. the effective use of government revenue;
2. the growing evidence that non-profit child care programs are superior in quality to programs provided in commercial setting; and

3. the experience of inadequate service and lack of public accountability in the similar field of care programs for the elderly (i.e. commercial nursing homes). *To be debated on Thursday, January 29, 1987.*

#### Ballot Item No. 43

*Mr. Cureatz—Resolution—That in the opinion of this House, the Minister of Agriculture and Food should ensure the continuation of an active farmer being allowed to retain a retirement lot by severance and further that the farm community should be allowed in those circumstances where farms have unworkable agricultural lots as ravine lots, small bush lots, inaccessible areas for large farm equipment, and other such land and in the discretion of the Land Division Committee to take in further considerations, one of which would be the size of the property, and further upon the said adoption of said policy by the County or Regional Government, to be allowed to sever off such said parcel, and any future owners of said severed land would acknowledge the farmer's right to farm on surrounding property. To be debated on Thursday, February 5, 1987.*

#### Ballot Item No. 44

*Second Reading Bill 149, An Act to amend the Occupational Health and Safety Act. Mr. Martel. To be debated on Thursday, February 5, 1987.*

#### Ballot Item No. 45

*Second Reading Bill 188, An Act to amend the Retail Business Holidays Act. Mr. Ashe. To be debated on Thursday, February 12, 1987.*

#### Ballot Item No. 46

*Mr. Wildman—Resolution—That in the opinion of this House, recognizing that small municipalities do not have the financial base necessary to purchase modern, effective and reliable fire protection equipment, the Government should provide direct financial assistance to small municipalities for the purchase of fire protection equipment. To be debated on Thursday, February 12, 1987.*

#### Ballot Item No. 48

*Second Reading Bill 172, An Act respecting Environmental Rights in Ontario. Mrs. Grier. To be debated on Thursday, February 19, 1987.*

#### Ballot Item No. 57

*Mrs. Marland—Resolution—That in the opinion of this House, the Minister of Revenue should initiate a reform of the property tax assessment process with a view to developing procedures that adequately address the complexities that arise when a market value assessment policy for the purpose of establishing property taxes is implemented by a municipality.*
